Memo to       B. Grusko

From           D A Burns

**Subject**      The Council for NIR Spectroscopy

You've been brought up to date on the subject organization in memos from Howard Mark and from me. Our bitching got the name changed from "Institute" to "Council" -- much less intimidating and decidedly more descriptive.

Sponsorship costs \$250 and includes two members. I recommend TIS join and be in a better position to know what the group is doing. If we choose to not join in this capacity, then (a) I'll likely join as an individual, and (b) Technicon will be conspicuous by its action.

Assuming TIS becomes a sponsor, I recommend that Howard Mark and I be designated as the two members. A check for payment should be requested ASAP.

Your comments are solicited.
