Subject: Conference on Testing of Infrared Reflectance Devices for
Compositional Analyses of Grain

To: E. E. Finney, Jr.
Chairman, AMRI

Authorization is requested to attend a meeting in Chicago, Illinois, September 16 and 17, 1974. This meeting is an informal conference of research workers to review progress in the testing of infrared reflectance instruments for measuring oil, moisture, and protein content. Reports are expected from the following Laboratories:

Instrumentation Research Lab., Beltsville, Maryland	K. H. Norris
Illinois State Dept. of Agr. Lab., De Kalb, Illinois	E. Horn S. Podgorny
Grain Marketing Research Lab., Manhattan, Kansas	C. A. Watson
Western Wheat Quality Lab., Pullman, Washington	G. L. Rubenthaler
Soybean Research Lab., Urbana, Illinois	R. Rinne S. Gibbons
Agronomy Department, U. of Ill., Urbana, Ill.	J. W. Dudley
Grain Research Lab., Winnipeg, Canada	P. C. Williams

This conference will help our Laboratory as well as others in planning our work for the future.

K. H. Norris
Chief, Instrumentation Research Lab.
