July 23, 1990

Mr. Charles Nittrouer  
Princeton Instruments, Inc.  
3660 Quakerbridge Road  
Trenton, NJ 08619

Dear Chuck:

I wish to welcome you as a first-time exhibitor at what I consider the world's finest diffuse reflectance conference. When the Fifth International Diffuse Reflectance Conference has ended, you will be convinced this alternate year gathering is a must for your company.

The documents enclosed show your exact exhibit location in the Science Center and just as important where that building is located on campus.

The table for your use is 30 x 96 inches capable of holding up to 200 pounds of instrument. If a stronger table is needed, it can be provided but is only 30 x 60 inches. Electrical service provided is 110V/15A. Two chairs will also be provided unless you inform me otherwise.

Exhibits can be set up on Sunday, August 12; all exhibits must be removed by noon, Friday, August 17. I will be available throughout the conference to ensure your needs are met.

Thank you for electing to join us. I look forward to meeting and working with you at the conference.

Very truly yours,

Thomas N. Long
